Hi Ms. Endres,

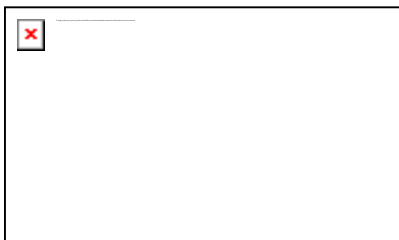

I've included the original concept designs and descriptions below for your viewing. Just a reminder that these are no longer the current designs, as we have given feedback to the artist, who will be providing updated concepts within the next two weeks.

We will update City Council and staff as soon as we have the revised designs available.

Please let me know if you have any questions.

Thank you,

Subject: Public Art Gateway Project - Online Voting Preview

Good afternoon Honorable Mayor and City Council,

The JCCVB is excited to continue our community engagement of the Public Art Gateway Project by launching the online voting of three design concepts this coming Monday, September 30th.

Urban Catalyst Lab artist, William Massey, has gathered input from Johns Creek residents from three community engagement meetings, online feedback forms and the Taste of Johns Creek community event in order to develop these three design concepts. JCCVB has partnered with Johns Creek City Staff to develop an online voting platform for residents to weigh in and give feedback on the designs.

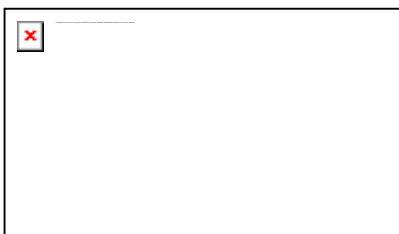

We invite you to view a preview of the designs and voting platform [here](#). Voting will officially go live on Monday, September 30th and remain open 7-14 days, depending on the amount of feedback received within the first week. Please feel free to preview the link and designs, but please hold-off on sharing with the public until Monday, September 30th.

Once voting has closed, the final selection will be submitted to Public Art Board for review. Following the Public Art Board application process, JCCVB and the Public Art Board will present the proposed design to City Council at an upcoming Work Session.

Please let me know if you have any questions!

Thank you,

Thanks Jay. You make very reasonable points. Whether an individual Council member is for the markers or not, these designs will likely be met with widespread derision inside and possibly outside our city. Indeed, if you are for Gateway Markers, these designs probably set that effort back a long way. I do not want to see the CVB, the Staff, the Council, or the community at large embarrassed. I also don't want the residents to again sense that their city is out of touch with them and that they will need to mount a campaign to fight against one of these options becoming a reality. Chief, speaking as one Council member who will hopefully be joined by others like Jay, please do what you can to get this process redirected on a more constructive path. In my opinion, these designs should not be released to the public on Monday for the good of all involved.

Thank you.

j

Chief Densmore,

I just had an opportunity to review the “Gateway Markers” designs. I am very concerned about these 3 designs to be released to the public on Sep 30th.

I will be the first one to admit that I am not qualified to judge the artistic merit of these designs, and I question the residents of Johns Creek will be reacted to these designs based on their artistic merit. Rather, I believe we are looking for designs that connect to community and its spirit. And unfortunately, I don’t see a trace of illustrations of our community in those designs.

Very much like “The District” a few years ago, when we released multiple concepts and asked residents to “Choose”, the assumption is: “ These are the options” that have been approved and endorsed by the elected officials. I don’t want to see us struggling with the communications after the fact again.

I’d like to express that I believe we should have Gateway Markers, but what’s missing is a symbol of representation and connection.

Jay

Good evening JCCVB Board members,

Based on some valuable feedback we have received, we have decided to delay the public voting on these designs and will not be launching voting on Monday, September 30th.

We are working with Urban Catalyst Lab and the artist on a revised timeline, and will keep you updated with the newly scheduled day we plan to promote this part of the community engagement process.

Thank you for your understanding - please let me know if you have any questions.

Thanks Jay. You make very reasonable points. Whether an individual Council member is for the markers or not, these designs will likely be met with widespread derision inside and possibly outside our city. Indeed, if you are for Gateway Markers, these designs probably set that effort back a long way. I do not want to see the CVB, the Staff, the Council, or the community at large embarrassed. I also don't want the residents to again sense that their city is out of touch with them and that they will need to mount a campaign to fight against one of these options becoming a reality. Chief, speaking as one Council member who will hopefully be joined by others like Jay, please do what you can to get this process redirected on a more constructive path. In my opinion, these designs should not be released to the public on Monday for the good of all involved.

Thank you.

Chief Densmore,

I just had an opportunity to review the "Gateway Markers" designs. I am very concerned about these 3 designs to be released to the public on Sep 30th.

I will be the first one to admit that I am not qualified to judge the artistic merit of these designs, and I question the residents of Johns Creek will be reacted to these designs based on their artistic merit. Rather, I believe we are looking for designs that connect to community and its spirit. And unfortunately, I don't see a trace of illustrations of our community in those designs.

Very much like "The District" a few years ago, when we released multiple concepts and asked residents to "Choose", the assumption is: "These are the options" that have been approved and endorsed by the elected officials. I don't want to see us struggling with the communications after the fact again.

I'd like to express that I believe we should have Gateway Markers, but what's missing is a symbol of representation and connection.

Good afternoon Honorable Mayor and City Council,

The JCCVB is excited to continue our community engagement of the Public Art Gateway Project by launching the online voting of three design concepts this coming Monday, September 30th.

Urban Catalyst Lab artist, William Massey, has gathered input from Johns Creek residents from three community engagement meetings, online feedback forms and the Taste of Johns Creek community event in order to develop these three design concepts. JCCVB has partnered with Johns Creek City Staff to develop an online voting platform for residents to weigh in and give feedback on the designs.

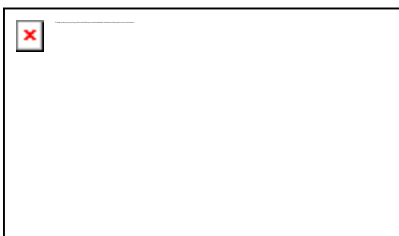

We invite you to view a preview of the designs and voting platform [here](#). Voting will officially go live on Monday, September 30th and remain open 7-14 days, depending on the amount of feedback received within the first week. Please feel free to preview the link and designs, but please hold-off on sharing with the public until Monday, September 30th.

Once voting has closed, the final selection will be submitted to Public Art Board for review. Following the Public Art Board application process, JCCVB and the Public Art Board will present the proposed design to City Council at an upcoming Work Session.

Please let me know if you have any questions!

Thank you,

Good evening JCCVB Board members,

Based on some valuable feedback we have received, we have decided to delay the public voting on these designs and will not be launching voting on Monday, September 30th.

We are working with Urban Catalyst Lab and the artist on a revised timeline, and will keep you updated with the newly scheduled day we plan to promote this part of the community engagement process.

Thank you for your understanding - please let me know if you have any questions.

Chief Densmore,

I just had an opportunity to review the “Gateway Markers” designs. I am very concerned about these 3 designs to be released to the public on Sep 30th.

I will be the first one to admit that I am not qualified to judge the artistic merit of these designs, and I question the residents of Johns Creek will be reacted to these designs based on their artistic merit. Rather, I believe we are looking for designs that connect to community and its spirit. And unfortunately, I don’t see a trace of illustrations of our community in those designs.

Very much like “The District” a few years ago, when we released multiple concepts and asked residents to “Choose”, the assumption is: “ These are the options” that have been approved and endorsed by the elected officials. I don’t want to see us struggling with the communications after the fact again.

I’d like to express that I believe we should have Gateway Markers, but what’s missing is a symbol of representation and connection.

Jay

Good afternoon Honorable Mayor and City Council,

The JCCVB is excited to continue our community engagement of the Public Art Gateway Project by launching the online voting of three design concepts this coming Monday, September 30th.

Urban Catalyst Lab artist, William Massey, has gathered input from Johns Creek residents from three community engagement meetings, online feedback forms and the Taste of Johns Creek community event in order to develop these three design concepts. JCCVB has partnered with Johns Creek City Staff to develop an online voting platform for residents to weigh in and give feedback on the designs.

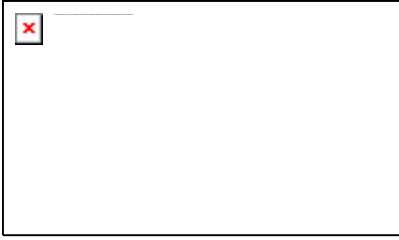

We invite you to view a preview of the designs and voting platform [here](#). Voting will officially go live on Monday, September 30th and remain open 7-14 days, depending on the amount of feedback received within the first week. Please feel free to preview the link and designs, but please hold-off on sharing with the public until Monday, September 30th.

Once voting has closed, the final selection will be submitted to Public Art Board for review. Following the Public Art Board application process, JCCVB and the Public Art Board will present the proposed design to City Council at an upcoming Work Session.

Please let me know if you have any questions!

Thank you,
