What your city has done to 37 Main Johns creek is despicable. I am one of the avid 37 Main Supporters that the Mayor felt the need to hunt down my phone number and threaten me with legal action because of a Facebook post.

On Thursday, July 14, 2016, 37 Main Johns Creek posted an article on their page that was published in the North Fulton Herald regarding the noise ordinance issue between 37 Main and The City Of Johns Creek.

I was one of 223 people who shared the post and one of over 250 people who commented on the post.

Yet somehow, my FB post got flagged by the Mayor.

When I shared the post to my Facebook page, the comment I made was generic. My original comment on the post I shared said: "This is a bunch of BS! God damned corrupt government. This pisses me off! #support37main.

Mind you, what I posted on my personal FB page did not mention anyone's name or position. I was expressing my feelings and opinion like we all do.

The next day, Friday, July 15, 2016 I received an unexpected phone call from The Mayor of Johns Creek about my Facebook post.

He was calling me to threaten me with legal action because my FB post had the word "corrupt" in it, and by using that word, it implies that I am accusing him of him being a criminal or doing something illegal.

At the time of the call, I was not able to pull up my FB to double check exactly what I had written. So in the end, I apologized to him if I had offended him and told him I would go back and remove the word corrupt from the post.

When I was able to go back to my post, which was buried and a non issue by that time expecting to see some reference to his name or position, was when I had realized that there was no specific reference to him... just a generic complaint about government.

And in this day and age, it's fair to say that MOST of us distrust government at ANY LEVEL regardless of the affiliation.

Even though there was no specific mention of the Mayor or anyone else in the headline of my FB post, I edited the post.

(Wish I had done a before and after screenshot, but I didn't).

I live in Gwinnett county. I shop weekly at Whole Foods Johns Creek and I workout at Crunch Johns Creek and see a Chiropractor. I drive 30 minutes out of my way to patron these establishments.

Between the actions of what the City Council has done to 37 Main, and the Mayor calling me about a Facebook post, I'll go back to spending my money in Gwinnett County.

As much as I love working out at Crunch and shopping at Whole Foods, the thought of putting tax revenue dollars into Johns Creek leaves me with a bad taste in my mouth.

I am one of the thousands of 37 Main supporters who does not live in Johns Creek who is boycotting the city by not spending another dollar in your city.

Shari Friedman By the way... I had announced to the world what the Mayor had done. Here's my post and the reaction and comments it spawned.

Shari Friedman Freda Stone Gazdik. I wish I had a recording of it. My call recorder wouldn't work and wasn't able to record the call. I've since downloaded a new call recorder app. Apparently, I am not the only 37 Main supporter he called and threatened.

Freda Stone Gazdik Shari Friedman.....Wow... that's incredibly unprofessional and not the type I want representing Johns Creek. How did he threaten you?

Shari Friedman He threatened to have his lawyer contact me if I wasn't more careful with the words I chose on my Facebook posts with regard to the 37 issue. The word he had issue with was "corrupt". I never mentioned his name or his position. All I said was "corrupt government". If you click on the link in this thread that has the picture of the baby, you'll get the whole story.

Teri Hopkins Holt REALLY JONS CREEK!!!!!! I live and work in John's Creek!!! It seems like this city has been nothing but a way to raise our taxes!!!! I moved here in 94 !!!! And things were just fine before JC cityhood. JUST WHEN ARE WE GOING TO BREAK OFF FROM FULTON COUNTY. ALL IF THE NEW CITIES ARE A BIG WASTE OF TIME AND MONEY. So now we got all kinds of police to write tickets.

at 19:09:13 on 3/27/2017 UTC

We attended this egg hunt one year, and the parents were the ones running across the field stealing up all the eggs. Each run was over in literally less than a minute with several kids crying that they didn't get anything while the parents who scooped up 20 eggs for their baby laughed. Never again.

Can a Democrat win the 7th Congressional District seat from incumbent Rob Woodall? There may be just one out there. Join us this Thursday, July 20th at 8:30 pm. We'll be talking politics and government, and why Democrats need to take back the house in 2018. Listen at <http://www.spreaker.com/user/peachtreecornerslife>

Unknown To my knowledge, there are 4 or 5 Democratic candidates who have stated their intention to run - I'll bet there are a few more to come. I hope we will choose and a candidate that offers a clear alternative to the current occupant of the office. We need a change.

at 3:05:00 on 7/16/2017 UTC

Peachtree Corners You're correct Penny. I hope to have several others on the show as well.

at 3:11:28 on 7/16/2017 UTC

Unknown Isn't he your next door neighbor?

at 3:17:37 on 7/16/2017 UTC

Peachtree Corners :) yes. I like Steve Reilly for Congress and over the year I have gotten to know him and his family well.

at 3:20:24 on 7/16/2017 UTC

Unknown He's a likable guy I'm sure. I'm hoping we can nominate a "clear alternative" to what the republican's have offered.

at 3:30:36 on 7/16/2017 UTC

Unknown WTF , why would we want a POS democrat they are all nuts !

at 3:39:44 on 7/16/2017 UTC

Unknown Your use of all the best words and your huge knowledge on spacing and capitalization convinces me. Bravo.

at 4:08:49 on 7/16/2017 UTC

Unknown Look forward to these shows....

at 4:15:43 on 7/16/2017 UTC

Unknown This is a Political Democrat site?

at 15:08:28 on 7/16/2017 UTC

Peachtree Corners No. I'm actually a former Democrat, that became a Reagan Republican. In recent years I've been more independent minded.

at 15:10:42 on 7/16/2017 UTC

Peachtree Corners BTW, I'd love to have Congressman Rob Woodall - I'm a small show, so I don't know if he'd be interested. But, I'll ask.

at 16:05:10 on 7/16/2017 UTC

Unknown Glad to see you are open minded. LOL!

at 17:06:53 on 7/16/2017 UTC

Unknown Peachtree Corners good luck, he only likes "groups" of 4 people at most so he can control the narrative. He prefers not to meet with constituents

at 17:48:32 on 7/16/2017 UTC

Unknown No, they are not. They are decent, hard working, patriotic Americans. Just because they don't align with your narrow view does not make them nuts.

at 17:50:53 on 7/16/2017 UTC

Unknown Woodall does not present well from what I have seen.

at 19:05:13 on 7/16/2017 UTC

Unknown Why would anyone take your post seriously? This is for people who are interested in the issues and are willing to listen and learn-with an open mind.

at 19:09:17 on 7/16/2017 UTC

Peachtree Corners May well be, but I can always ask.

at 19:27:53 on 7/16/2017 UTC

Unknown Looking forward to seeing the Democrats dump another fortune into a race that they can't win. Actually looking to replace a well-liked incumbent. 1% chance.

at 4:49:15 on 7/17/2017 UTC

Unknown If I learned anything in politics, it's that the numbers don't lie. But it will be an interesting race.

at 10:43:00 on 7/17/2017 UTC

Unknown BTW I'm not sure that he is well liked as much as unknown to most of his constituents.

at 10:43:58 on 7/17/2017 UTC

Unknown Well liked is a stretch.

at 11:49:30 on 7/17/2017 UTC

Unknown After all his time in office, we still don't know much about Woodall or his platform. The need for change in the 7th is here.

at 11:56:02 on 7/17/2017 UTC

Unknown Well-liked and unknown incumbent are the same thing in politics. Without a "live boy or a dead girl", he gets re-elected.

at 21:58:27 on 7/19/2017 UTC

Peachtree Corners Kevin Jameson what does that even mean?

at 22:00:12 on 7/19/2017 UTC

Unknown Anyone who thinks a challenger has even a chance at a incumbent who is not

under indictment is detached from reality. 97% success rate. Like it or not. I personally like term limits but that's not the reality.

http://www.rasmussenreports.com/public_content/political_commentary/commentary_by_kyle_kondik/incumbent_reelection_rates_higher_than_average_in_2016

Incumbents in 2016

0	2	27	93%	93%
0	1	4	80%	80%

at 22:00:45 on 7/19/2017 UTC

Unknown Peachtree Corners - Learn a little history. That is a very famous saying about re-electing politicians. It may not be politically correct, but it is quite true.

at 22:04:27 on 7/19/2017 UTC

Unknown <https://www.dailykos.com/stories/2014/3/12/1283725/-Dead-Girl-or-Live-Boy>

Unknown Kevin Jameson this is nonsense.....

at 22:30:43 on 7/19/2017 UTC

Unknown Republicans have raised \$87 million this year compared to half that by the dems. No money for a dem to run against an incumbent republican.

This could be a great place but Mayor Bodker and the city work tirelessly to undo what's good. Ignoring zoning laws, repeated allegations of ethics violations, lack of transparency, a delayed election, questionable spending, all make it hard to live and do business here.

Everyone who owns a small business (myself included) knows to fear the wrath of the imperial federal government, the state government, the county government, and now apparently even their local city government. The city of JC....you are totally busted to everyone with a rational brain for driving out a business you didn't want anymore, your lame excuses don't pass the sniff test whatsoever. Any business owner facing the same obstacles that you invented to drive 37 Main away would do the exact same thing...cut their losses and close up shop, the only winners end up being the attorneys.

You made it impossible for them to stay open with your ambiguous noise ordinance, one that would put them in violation during a band's afternoon sound check! What a joke, but it isn't funny...

If 37 Main was owned by a family member or close friend would this all go down the same? We all know the answer to that, so do each of you.

Unfortunately, the losers are managers, wait staff, cooks and all the other employees who lost their jobs overnight. Don't insult us with your made up excuses, everyone can see through it easily, only you are to blame. I'm sure you all sleep quite well at night anyway so why am I bothering....

No, we talking about a proven(unless the cops were lying!)*bad parent*, and the *worst* Council member Johns Creek ever had.

But since she has MONEY, sycophants like you, continue to REWARD her with undeserved praises and *phony* awards So you are the one who has displayed POOR judgement(as usual) here.

Chris Coughlin Lakisha Kaseem, I sent you a message earlier basically describing that using this fake account with your other fake accounts (Smylowitz, Badker, etc) is actually taking away from your goals. The troll account takes away from the credibility of your comments and, frankly, does more damage than good to you, the city, and everyone there. Drop the fake account, offer good ideas, and challenge your elected officials in civil discourse if you want to change something.

Michaela Badker "Artificial turf that uses infill made from recycled tires ("crumb rubber") contains a cocktail of toxic chemicals, including benzothiazole, carbon black, and heavy metals. As the Mt. Sinai Children's Environmental Health Center has written: "Exposures to chemicals present in crumb rubber at very high levels, typical of animal or occupational studies, are known to cause birth defects, neurologic and developmental deficits, and some can even cause cancer."

Children are particularly vulnerable to toxic threats. Children have increased exposure to toxic chemicals due to the unique way they interact with their environment. Because they are growing and developing, their bodies are also more susceptible than adults to chemical exposures."

Lakisha Kaseem 📦

"Johns Creek Residents Should NOT Vote This Fall..."

Residents of Johns Creek should not vote in this upcoming election if they are not familiar with the candidates, the major issues in Johns Creek and are basing their decisions on such variables as :

You are not familiar with the issues we are facing such as potential widening of our roads to overcome the ineffective traffic light system we have today
You are unfamiliar with the negative impact higher density housing has on our roads, schools, and property values
You are basing your decision on the endorsement of an elected official, who just wants to avoid having someone challenge them on issues before the City Council
You saw more signs for the candidate that you are going to vote for so you believe that is a sign of more support for that candidate(Signs for candidates are placed on the roads by the candidates and their crews-Signs in neighborhoods actually show you who your neighbors support but you still need to educate yourself!!!)
You read their mailers to your home and they seem like a nice person

Residents of Johns Creek should vote IF:

They have done their own research into the candidates
They have watched the debates, forums, City Council Meetings and Work Sessions and see how these candidates actually think and function
They understand that Johns Creek is at a crossroads. Do we become Buckhead or stay Johns Creek.

What's worse than not voting? Being an uninformed voter and making a random choice at the voting booth.

The future of Johns Creek is too important to leave it to a random outcome on election day. Let the informed voters choose and we will all be better off.

Personally, I do this in all elections. I abhor the idea of having voted for the worst of two candidates because I knew nothing about either candidate.

Yes, we are told that "everyone" should vote. But if everyone voted, then it really becomes a popularity contest. And incumbents have more name recognition, so that certainly works in their favor for a popularity contest. They call it the "popular vote" for a reason. And I do not think it implies anything more than it was a popularity contest.

Voting for the popular people is no way to run a government. Voting for principled leadership that will follow your City Charter and err in decisions in favor of their constituents-That's the ticket!

I encourage you to do as much research on the candidates as you would if you were purchasing a new dishwasher or planning a trip to an unknown location. Search online. Ask your neighbors. Watch City Council meetings and work sessions online.

An educated voter is the best voter. Be the best you can be before you cast that ballot." 😊 EJ Moosa

City of Johns Creek, Georgia - Government Hi Lisa. Thank you for your inquiry. The Atlanta Athletic Clubs is a private country club located directly off Medlock Bridge Road (SR141) in Johns Creek. Their official address is 1930 Bobby Jones Dr. If you are a Johns Creek resident, you may be familiar with the annual Johns Creek Art Festival, happening this weekend. The 2018 International Festival is being held in the same location. Luckily, there is only one entrance and exit to both the event site and to the Atlanta Athletic Club. As April 21, 2018 approaches we will have site maps available listing parking, vendors, sponsors and more. If you have any further questions please let us know.

City of Johns Creek, Georgia - Government Hi Keith Davis. The Household Hazardous Waste event will not include paper shredding. The next document shredding will be held on Nov. 18 at Panera Bread on Medlock Bridge Road. We'll post details about that event in the coming weeks. Please let me know if you have additional questions. Thanks!

City of Johns Creek, Georgia - Government Hi Kathy. No, styrofoam will not be accepted. You can visit earth911.org, click on the upper right hand corner tab that says "where to recycle," put in your Johns Creek zip code, and search for #6 Plastic - Expanded (Styrofoam is a brand name for Expanded Polystyrene, aka #6 expanded). I hope this helps. Thanks!

City of Johns Creek, Georgia - Government Hi Odette Wehunt Talbert. The City of Johns Creek co-hosts a Bulky Trash Recycling Day with Keep Johns Creek Beautiful typically in the spring. Some appliances, such as refrigerators, washers and dryers, are accepted. When the next Bulky Trash day is scheduled, we'll announce it here on social and the City website, including the list of items accepted and not accepted. Please let me know if you have additional questions. Thanks!

This Wednesday, Oct. 25, students at Dolvin and Ocee Elementary Schools are encouraged to participate in "Walk to School Wednesday," which takes its first step towards reducing our carbon footprint and the level of congestion on our roads.

Every Wednesday, for the rest of the school year, we encourage our young people to walk, bike, roll, or ride the school bus to school!

Walk to School Wednesday is held in partnership with the City of Johns Creek, Georgia Commute Schools, and Georgia Safe Routes to School.

Michaela Badker Joe Duffy 😊 No matter what *service*, a majority of us here don't want it.

And since you posted a link, did you even bother to read the comments that make sense?

"

Bob Yall says:

Nov 19, 2015

Grew up in Dunwoody... after MARTA arrived at Perimeter Mall there was a measurable increase in crime, assaults and robberies in that area of DeKalb... you can research this via DeKalb County...

Dunwoody before MARTA... nice, safe, less congestion due to less businesses & strip malls trying to take advantage of MARTA...90% white affluent constituents... Dunwoody HS was one of the top 5 High Schools in the state.

Dunwoody after MARTA...massive traffic, higher crime, and yes what was very nice is now a bunch of apartment dwelling transitional types and quite frankly not an attractive area to live

anymore... Dunwoody High School no longer ranks among the top high schools...

All of this along with dysfunctional DeKalb County stealing tax money from this affluent area and spending it on bogus projects in South Dekalb produced the new city of Dunwoody.

These are facts and I hate what MARTA and its after effects did to my hometown.

Its a congested, over developed cess pool now."

City of Johns Creek, Georgia - Government Hi Kent Altom. Sorry I missed your question last week. We understand your concerns about the synthetic turf. City Council approved the new turf fields for two fields at Newtown Park and one field at Shakerag Park in accordance with the recommendations of the City's Recreation & Parks Strategic Plan. According to research and analysis by toxicologists at Gradient Toxicology & Risk Sciences, turf product is a safe choice. And, according to a January 2017 Washington State Department of Health report (available here:

<https://www.doh.wa.gov/CommunityandEnvironment/Schools/EnvironmentalHealth/SyntheticTurf>), there is no elevated health risk for SBR rubber. The City of Johns Creek is utilizing the same specified materials that are currently used by Georgia State University, the Fulton County School System and the Atlanta Falcons. The new turf fields at both locations will allow upcoming sports seasons to occur with minimal disruption and will enable leagues to increase their play time in conditions that would have otherwise been lost to rain. Please let us know if you have additional questions. Thanks!

Georgia Department of Transportation crews are currently extending the southbound Medlock Bridge Road left turn lanes onto eastbound Abbotts Bridge Road by 100 feet. The project will also include pulling the median nose back approximately 15 feet to help with eastbound Abbotts Bridge Road left turns onto northbound Medlock Bridge Road.

The project is expected to be completed by the end of November, weather permitting.

Maria Partenheimer Crenshaw Would've saved us some money if the median had been properly done to help left turns when it was worked on a few years agosupposedly to help with the same issue SMH

at 13:47:04 on 11/02/2017 UTC

Jean Vanevenhoven How about doing SOMETHING to help with west bound Abbotts Bridge???? Longer right turn lane, longer left turn lane? And a little paint over the gores would help with North bound Medlock so right turn lane could be longer.

City of Johns Creek, Georgia - Government Hi Jean Vanevenhoven, Regarding Abbotts Bridge Road, there are plans for operational improvements between Parsons Road and Medlock Bridge Road. More information is on the City website: <https://www.johnscreekga.gov/Residents/Public-Works/Future-Improvements/Abbotts-Bridge-Parsons-Medlock>

The Georgia Department of Transportation is currently working on plans to widen Abbotts Bridge from Medlock Bridge Road to Peachtree Industrial Road.

Here's a link to a press release about the Public Info Open House on the project in 2015. <https://www.johnscreekga.gov/NewsAndEvents/News-Archive/2015-News/Georgia-DOT-seeking-public-input-on-plans-to-widen>

Within the press release, there's a link to the GDOT website regarding the project.

Medlock Bridge Road is on the TSPLOST project list:

<https://www.johnscreekga.gov/Residents/Public-Works/TSPLOST/Medlock-Bridge-Road-Capacity-Project>

Please let us know if you have additional questions. Thanks!

Do you like to take photos? If so, we need your help capturing street signs on camera!

Through a partnership between the City and @Mapillary, a smartphone app, residents can help collect street sign locations by simply taking pictures of their neighborhood.

City of Johns Creek, Georgia - Government Hi Mike Sabol. This is a fun and interactive activity that is available to residents to participate in. It is not meant to be a revenue generator

for the City. Residents who choose to participate in this project do so voluntarily, very similar to the many other volunteer activities that are available. Some may choose to participate in this activity rather than other volunteer opportunities because this may be more attractive or closely aligned with a particular person's interest. Thanks!

Looks like someone in Johns Creek is headed for a run off as I have started receiving daily robo calls to complete an election survey. Thing is, I do not and never have lived in Johns Creek. This has happened before and I thought it was corrected but the calls are back. Received 4 of them today. I live, vote, and my address is in another city...not Johns Creek! This is so harassing and stupid.

City of Johns Creek, Georgia - Government Thanks for your note. The City of Johns Creek has held the annual Christmas Tree & Dreidel Display Lighting event for the last 10 years.

There's a link to more information on the City website about the event included in the above posting, and it includes a photo of what the lit dreidel display looks like. (Here's the link: <https://www.johnscreekga.gov/NewsAndEvents/News-Archive/2017-News/Christmas-Tree-and-Dreidel-Lighting-ushers-in-2017>)

The Mayor of Johns Creek, Mike Bodker, and City Manager, Warren Hutmacher, are both Jewish and the City strives to be inclusive and respectful of holiday celebrations. The reason we have lights on the Dreidel is so that it can be seen in the dark. The City decided to use symbols of the seasons that are not religious to avoid any conflict with state and federal laws. We typically select an evening very late in November each year to gather the community to celebrate together well ahead of the holiday season before schedules become too busy. The event also features Santa, live reindeer, music, refreshments (while they last) and other activities for the community to enjoy. We hope you're able to attend this event! Please let us know if you have any questions. Thanks!

The Johns Creek City Council voted unanimously to reallocate fellow Councilmember Cori Davenport's entire four-year city salary to the Johns Creek Public Safety Foundation, at her request.

As a result, the Johns Creek Public Safety Foundation, which is a non-profit organization that supports Johns Creek police officers and firefighters in their time of need, will receive \$60,000. This also marks the largest single donation the organization has received in its 9-year history.

Gov. Nathan Deal recently recognized 26 Georgia schools as the state's top schools in its annual Single Statewide Accountability System (SSAS) recognition program. Fifteen of those schools are located in Johns Creek and were recognized as "highest performing school."

Highest Performing schools must earn a three-year average College and Career Ready Performance Index (CCRPI) Achievement Score that ranks in at least the 93rd percentile.

Park Place will be closed until Tuesday, Jan. 23 due to repairs from a burst pipe.

Crews will continue making repairs at Park Place throughout the next few days.

There will be on-going repairs to a portion of the kitchen area therefore most of the fitness classes will be relocated to the Newtown Community Clubhouse (next door to Park Place) with slight modifications to some class times. If you are enrolled in one of our fitness classes, you will receive an email about your specific class and meeting time.

Park Place will reopen for regularly scheduled hours at 9 a.m. on Tuesday, Jan. 23.

For participants who have questions, please email ParkPlace@JohnsCreekGA.gov or leave a message by calling 678-512-3430 and someone will return your call.

Thank you for your patience!

Kiersten Kleiber Please consider adding lighting to the newly poured sidewalks along Abbott's Bridge Rd. The road is ridiculously dark. I am beyond thrilled there will soon be walk-able, bike-able sidewalks to encourage other modes of getting to and from places, in an effort to further promote use by citizens, lights would add a MUCH needed security component to the plan. Additionally, would there be any thoughts to adding a pedestrian bridge somewhere around Abbott's/Jones bridge to allow safer access to ride to the Greenway? Let's achieve the Smart City sustainability.

"Given the potential for massive habitat loss for wildlife and the proximity of this proposed park to the Chattahoochee River, we feel that an active use park with managed ball fields and impervious surface parking for up to 800 vehicles is not the best use for this fragile landscape. Instead, we encourage the city to consider using this environmentally sensitive property as one of the passive parks. This would make more sense for both people and birds to thrive, while still adhering to the Strategic Plan and the Metropolitan River Protection Act."

This Wednesday, Jan. 31, students at Dolvin and Ocee Elementary Schools are encouraged to participate in "Walk to School Wednesday," which takes its first step towards reducing our carbon footprint and the level of congestion on our roads.

Every Wednesday, for the rest of the school year, we encourage our young people to walk, bike, roll, or ride the school bus to school!

Ramona Curtis McCary Now please be sure you have officers or safety spotters along the way to keep our children safe if you wish to promote this initiative. This is not your back in the day environment. And no, I'm not paranoid, just participate in our Methodist initiative to be aware of the high incident of child kidnapping in our metro area. Green is a great initiative, but child safety is paramount and trumps green.

Ko Seo Every neighborhood is not connected with sidewalks to school. I've seen people parking to the nearest neighborhood to walk their children, which I think defeats the whole purpose. If you are going to promote walk to school, you need to connect the sidewalks for safe walking first.

View Mayor Mike Bodker's statement on the proposed MARTA tax increase: <http://bit.ly/2EoSQiF>

Ramya Shivkumar ,at this point one does not require a study to prove that North Fulton is badly/desperately in need of public transport in any form. I wonder if the mayor ever

commutes to downtown or midtown or Dunwoody everyday. Just one week in peak hour traffic to and fro....should do it.

at 23:46:55 on 1/30/2018 UTC

Roy Wronker This is the important part:

"the fact that yet again Fulton County (DeKalb County and Clayton County) is asked to fund transit for metro Atlanta without any investment from other metro Atlanta residents and businesses."

Trevor Baggett Lakisha Kaseem your comments are very unfriendly; we live in Johns Creek because we don't want the crime and low life trash Atlanta has to offer. Plus, we pay taxes to live here so our elected officials can usher in 2018 and have a plan for mass transit. It is indeed a free country, but our governments need to work harder and look to places like China and Japan for better solutions to the grid lock. Having spent a great deal in Asia where the population in cities comparable to Atlanta are a factor of 10x, people can move around much easier and efficiently.

Lisa Barnard Dekle I think that transit and light rail is very much needed but I agree with the Mayor that it should be funded by ALL metro counties. Fulton, Dekalb and now Clayton have been funding MARTA for years all the while residents in Gwinnett, Cobb and other metro counties utilize the service but don't help pay for it.

at 0:51:38 on 1/31/2018 UTC

Michael Bodker I do commute to Dunwoody almost every work day. It takes me about an hour to drive 13 miles. I am not calling for more studies, but am asking a reasonable question about ridership and the impact on traffic as compared to the amount of money invested. I believe any dollars invested should be tied to expected results that can be measured and used to determine continued investment or the abandonment thereof if reasonable results are not being achieved.

at 1:32:41 on 1/31/2018 UTC

Andrew Fitzgerald Michael Bodker I'm not "glad" that you're sitting in traffic every day but am glad to see that a decision maker has first-hand experience on how important and awful this issue is for the people here. If we're looking for some kind of ROI, it just isn't going to happen - but that doesn't mean it doesn't make sense. Based on numbers alone, I should be renting an apartment instead of buying a house (yay, no debt!) - but the extra expense in interest/taxes, etc are worth the qualitative improvements in life. Sure, the numbers are the most important thing...but there's also the immeasurable improvements that we'd get from better transportation options.

Ramya Shivkumar Michael Bodker There are tangible and intangible results to any solution. While in my opinion, the tangible benefits are clear as crystal there is a huge intangible benefit that you cannot put a price tag on. What is the price people/ govt willing to pay to increase the quality of life, time with children, reduction in childcare expenses, and better connectivity. Can we put a price tag on quality of life, health benefits from less stress. There are numerous studies that tie the stress levels to health expenditures. (I am assuming that we can agree that driving in traffic increases stress levels). A complete life cycle ROI which encompasses not just the profit loss statement but also factors in the health and well-being of the people will provide staggering case. That Mr Mayor will give you numbers that has the potential to stun anyone. A balance sheet is not always the ONLY way to look at what makes sense for the people. And like people mentioned, I can quit my job or buy a house closer to

work. Then when I lose my job or want to change jobs, I can again sell and move and keep doing that until my finances go for a toss! My moving or other moving does not change anything. FYI - I leave home at 6.50am and return at 6.15pm and I haven't clocked in my 8 hours at work. I get back to work after 9pm to complete rest of my work day. Every day I put in an extra 3.5 hrs commute time which equals to a 6 day work week!

"Plus, we pay taxes to live here so our elected officials can usher in 2018 and have a plan for mass transit."

- A majority of us are not willing to pay for your "plans"

"It is indeed a free country, but our governments need to work harder and look to places like China and Japan for better solutions to the grid lock."

- Then why do we have plane loads of people coming here to JC from China and other Asian countries?

Katie Neal Sinotte Thank you for your thoughtfulness and consideration that is being shown in this decision process.

Can you further explain why it's believed that the "only sensible choice is one that does NOT involve the investment in light or heavy rail?"

I am certainly opposed to the idea of additional buses as the mass transit option - since that will only add to the number of vehicles in the road and increase congestion.

But short of investing in personal aircraft (yeah for helicopter pads in our backyards![]), we seriously need to consider light rail- even rail that could run on existing railroad lines. There are only two routes over the Chattahoochee for cars right now- and they clog up fast.

Check out what's going on in Nashville. Yes, there is a sales tax increase to pay for their long term transit plan, but also a hotel, rental car and business/excise tax to help pay for it as well.

Ken Orbach Sad, Atlanta will never have good public transportation and traffic will continue to get worse. It's almost unbearable now, wait till you literally can't move. There needs to be a regional transportation system. That is how it's done in the north. Trains are really good here. I take a train to NYC most days. One hour each way and I live 50 miles outside the city. Driving would be 2-3 hours. MARTA needs to expand and provide people an alternative to driving.

Emory Johns Creek Hospital debuted its Tranquility Garden on the hospital grounds this afternoon with a ribbon cutting ceremony.

Mayor Mike Bodker, and City Council members John Bradberry and Steve Broadbent, helped the Johns Creek Chamber of Commerce and hospital staff celebrate the garden's opening.

The Tranquility Garden, which features seating areas, flowers, trees, and pergolas, is located outside the Physicians Plaza Entrance B at Emory Johns Creek Hospital. The garden space is designed to be used by staff, patients, and their families.

Krista Kight Jackson I was just there... you guys did a beautiful job!

Motorist alert: Beginning Monday, Feb. 19, Fulton County crews will begin water line work from 9 p.m. to 6 a.m. at Webb Bridge Way at Kimball Bridge Road. Crews will alternate traffic during the operation and work is expected to last three nights, weather permitting.

Community leaders, school officials, and public safety personnel gathered to discuss school safety with Chattahoochee High School students today.

Mayor Mike Bodker, Johns Creek Police Major Brian Weaver and Lieut. Paul Michaud, Fulton County Schools Police Chief Mark Sulborski, and Chattahoochee High School Principal Tim Corrigan talked about safety in school and held a question and answer session with students.

Trevor Baggett Will they be sharing a summary of discussion items with parents of Chattahoochee or parents with incoming 9th graders from TRMS? It would be good for parents to understand what the action plan is, so we can offer some support.

Angie Ayres Jones Thank you Mike Bodker for addressing this very pressing concern with our students. We need schools to be every bit as secure as the Georgia Capital where our legislators who vote to slash funding for education go to work every day. We also need comprehensive, common sense gun violence prevention policy because murderers don't stop targeting our kids when they leave school.

Looks like Stefan has something to say to naive folks like you ↴

@StefanMolyneux

The left: give up your guns so we don't have any school shootings. Don't worry, the government will protect you.

Turns out the government cop cowered and hid while Cruz shot up the school.

Also the government forced the school to be a gun-free zone.

Until it wasn't.

Michaela Badker "Homer" Michael Bodker ☐ -

No wonder no one believes YOU, when you LIE about cutting bureaucratic red tape. ☐

"Why is it that you and your cronies on the Council..... keep granting *development variances* from existing zoning and thereby creating higher densities, and increased traffic congestion? This *game* is essentially a subsidy that allows developers to make a bigger profit without having their having to account for the additional burden placed on roads, city services (police, fire, ambulance, parks), and schools. And guess who pays for that subsidy? Johns Creek taxpayers – when we're told we need to increase revenues to pay for roads, services, and school expansions. Who does our City Council represent – residents, or developers and special interests?

This madness needs to stop until we can get our traffic congestion under control. Our City Council should focus on solving current residents' issues and concerns before they encourage even greater issues by allowing more development."

"So again, I have to ask, does Mayor Bodker have the best interests of the residents of Johns Creek at heart, or is his role as Mayor serve as a key qualifying credential to further his personal career, and also provide him the platform from which he can build his private firm's business?" ☐

- A very legitimate question from Ed Thompson (that still holds true!).

Michaela Badker "Homer" Michael Bodker☐ -

No wonder no one believes YOU, when you LIE about cutting bureaucratic red tape.☐

"Why is it that you and your cronies on the Council..... keep granting *development variances* from existing zoning and thereby creating higher densities, and increased traffic congestion? This *game* is essentially a subsidy that allows developers to make a bigger profit without having their having to account for the additional burden placed on roads, city services (police, fire, ambulance, parks), and schools. And guess who pays for that subsidy? Johns Creek taxpayers – when we're told we need to increase revenues to pay for roads, services, and school expansions. Who does our City Council represent – residents, or developers and special interests?

This madness needs to stop until we can get our traffic congestion under control. Our City Council should focus on solving current residents' issues and concerns before they encourage even greater issues by allowing more development."

"So again, I have to ask, does Mayor Bodker have the best interests of the residents of Johns Creek at heart, or is his role as Mayor serve as a key qualifying credential to further his personal career, and also provide him the platform from which he can build his private firm's business?" ☐

- A very legitimate question from Ed Thompson (that still holds true!).

Michael Bodker I wonder if these "trolls" (In Internet slang, a troll (/troʊl, trɒl/) is a person who sows discord on the Internet by starting quarrels or upsetting people, by posting inflammatory,[1] extraneous, or off-topic messages in an online community (such as a newsgroup, forum, chat room, or blog) with the intent of provoking readers into an emotional response[2] or of otherwise disrupting normal, on-topic discussion,[3] often for the troll's amusement.) would be so bold as to make these type of comments in the open if everyone could actually know who they were? It is unfortunate that people end up having disparaging and sometimes untrue statements spewed by these "trolls" who crawl out under the disguise of anonymity to say whatever they want (1st amendment right) without the accountability of liable. For the record, I did not invite anyone to speak at our meeting Monday, but I would not discourage it either. Hey "trolls" why don't you come and exercise that 1st amendment right and show your face so folks can see who you really are and give you the proper credit you deserve for you comments!

*Update (9:06 a.m., March 3) Old Alabama has been re-opened in both directions.

*Update (7:48 p.m.) Old Alabama Rd remains CLOSED between Preston Oaks Drive/Breckenridge Close and Brumbelow Road. For safety reasons, motorists should use alternate routes until the gas leak is contained and repairs are completed.

Breckenridge Close and Preston Oaks subdivision residents will not be allowed to drive westbound (towards Brumbelow Road). Timberstone subdivision residents should use the Alvin Road access to enter/exit the subdivision.

The city will continue to provide updates as soon as they are received.

*Update: (5:47 p.m.)The gas company reported that a 6" steel gas line was breached. The estimated time of repair will be in the morning.

Old Alabama Rd will remain CLOSED to traffic between Jones Bridge Rd and Brumbelow Rd. Only local residential traffic will be allowed.

*Update (5:13 p.m.): Atlanta Gas Light is on site. Brumbelow Rd is being used as an entry point into the school for parents picking up children.

*Update (4:38 p.m.) Officers will let parents into the St. Brigid parking lot to pick up their children from school but that's the only traffic getting into the area at this time.

MOTORIST ALERT: Old Alabama Road is CLOSED at Timberstone Road after crews hit a gas line near the intersection (which is between Jones Bridge Road and Haynes Bridge Road). All traffic is being turned around. The Johns Creek Fire Department is on scene and the gas company is en route. Please stay tuned for updates.

This Wednesday, Jan. 31, students at Dolvin and Ocee Elementary Schools are encouraged to participate in "Walk to School Wednesday," which takes its first step towards reducing our carbon footprint and the level of congestion on our roads.

Every Wednesday, for the rest of the school year, we encourage our young people to walk, bike, roll, or ride the school bus to school!

 **Ramona Curtis McCary** Now please be sure you have officers or safety spotters along the way to keep our children safe if you wish to promote this initiative. This is not your back in the day environment. And no, I'm not paranoid, just participate in our Methodist initiative to be aware of the high incident of child kidnapping in our metro area. Green is a great initiative, but child safety is paramount and trumps green.

 **Ko Seo** Every neighborhood is not connected with sidewalks to school. I've seen people parking to the nearest neighborhood to walk their children, which I think defeats the whole purpose. If you are going to promote walk to school, you need to connect the sidewalks for safe walking first.

The Johns Creek City Council unanimously approved a Resolution in opposition to Senate Bill 426, titled the "Broadband Infrastructure Leads to Development Act".

The proposed legislation, if passed, will allow the installation of utility poles and small wireless facilities within City owned right-of-way as a matter of right, diminishing or eliminating an important element of local control.

The legislation does not strike an appropriate balance between the need for deployment of wireless broadband infrastructure and the need for local governments to effectively manage the aesthetics of its own right-of-way. Additionally, if Senate Bill 426 is approved, it will allow utility poles in the right-of-way to be as high as 50 feet from grade (which is 10 feet taller than any existing utility pole in Johns Creek) and will provide no limit to the number of poles allowed in the City except to space them 500 feet apart from one another. Reasonable efforts by the City to use local control to preserve the look and feel of the right of way is critical to maintaining property values.

The City Council encourages residents to contact their state legislators regarding this issue.

Have you noticed the new Waze signs on roads crossing into the City of Johns Creek? The blue signs announce Johns Creek as a "Waze partner city since 2015" and are part of a new pilot project between the City and Waze, the world's largest crowd-source traffic navigation app.

The sign project aims to increase the number of drivers using Waze by reminding them that by using the app, they can help improve traffic – and potentially save time on their commute.

Susan Shelor I believe the largest crowdsourcing application is Google Maps, that shows live traffic patterns. I would post one here but it doesn't allow photographs and screenshots to be posted.. And it doesn't cost anything, and the city doesn't have to pay for it, nor clutter up our roads to advertise them.

Carman Van Beethoven There is plenty of data available from cell phones connected to the network....the North Fulton CTP utilized this same data to gauge movement within the city and surrounding vicinities....in short there are other ways besides Waze to follow traffic patterns, here Google is the ultimate beneficiary.

City of Johns Creek, Georgia - Government Hi Susan Shelor and Allison Martin, The City partnered with Waze (the world's largest crowdsourced traffic navigation app) in 2015 and while our partnership is geared more toward helping our residents to know where and how best to avoid congestion in and around the City, the app is available to anyone. The free partnership helps the City monitor traffic, which helps transportation planners to better understand traffic patterns, allowing them to make more-effective road improvements. Also, this pilot project, which the city does not receive payment for, helps to provide us with more information on current traffic conditions on the roads. While the city paid for the cost of the signs, which was \$80 for each, the value of the free data and its ability to allow us to monitor conditions on the roads regardless of whether or not they have physical sensors, is very helpful. To read more about the partnership, please visit: <https://www.johnscreekga.gov/Residents/Maps/Waze-Partnership> Thanks!

Lakisha Kaseem __Krista Kight Jackson ☐

"...you mean the one who killed the knife-wielding woman who refused to put her knife down after repeated attempts to disarm her???"

--- Those actions by a mentally-ill person do not deserve the death sentence, you ignoramus.
.

".... hmmm do you think she was not a threat?? Do you have think officers shouldn't be able to defend themselves when someone is threatening them???? What part of she refused to drop the weapon do you not understand?? Wow!"

--- Obviously the police think like you..and this is their response, though the woman NEVER THREATENED them.

In spite of no one being hurt.. the sissy cops decided to KILL her, because they can... 🙄

Krista Kight Jackson Lakisha Kaseem were you there?? How do you know she didn't threaten them? When you have a deadly weapon and an officer tells you to drop it, they tase you and you don't drop it, they use foam bullets and you don't drop it, I'd say she was a threat. They tried to solve the problem without deadly force. Unfortunately it didn't work. It's a sad story for sure but they were justified.

Krista Kight Jackson Lakisha Kaseem no, but your memes are not giving facts. The officer's account, news reports and the 911 call tell the story. If it turns out they were wrong, then they should be punished, but it's not looking that way.... seems like people have forgotten that in this country, we are innocent until proven guilty, not the other way around. Have a nice night. We can both feel great that we live in one of the safest cities anywhere. Very proud to live here and very proud of the officers that keep us safe everyday!

"Lakisha Kaseem no, but your memes are not giving facts."

- And you are ...?☐

.

"The officer's account, news reports and the 911 call tell the story."

- Yes, a mentally-ill woman who was a harm to no one else but herself, was shot dead by a bunch of insensitive, trigger-happy cowards.

.
"If it turns out they were wrong,"

- You wouldn't be saying that if it had been one of your retarded kids, that was murdered.

.
"then they should be punished,"

- By a firing squad, of course!

.
"but it's not looking that way...."

You are right. When cops investigate themselves, the outcome is always corrupt.

.
"seems like *people* have forgotten that in this country, we are innocent until proven guilty, not the other way around."

- Very true. Just look in the mirror, and you will see one of the *people* who's already found the woman guilty.

.
"Have a nice night."

- I had a great night. Seems like you're the one that's suffering from insomnia, staying up late on Facebook. (Try cannabis) 🤪

"...you mean the one who killed the knife-wielding woman who refused to put her knife down after repeated attempts to disarm her???"

--- Those actions by a mentally-ill person do not deserve the death sentence, you ignoramus.

".... hmmm do you think she was not a threat?? Do you have think officers shouldn't be able to defend themselves when someone is threatening them???? What part of she refused to drop the weapon do you not understand?? Wow!"

--- Obviously the police think like you..and this is their response, though the woman NEVER THREATENED them.

Elizabeth Norris Telford At Johns Creek High School, Black students make up 42% of the student body but 83% of those expelled. Only 3% of those expelled were white. Research shows Black and White students are sent to the principal's office at similar rates and that they commit serious offenses, like bringing weapons or drugs to school, at similar rates, too. But when Black students misbehave, they are punished more severely than White students who commit the same offenses.

Newtown Park will be temporarily CLOSED on Friday, June 1, from 7:30 a.m. to 10 a.m., due to a large event in the area.

Traffic will be heavy on Old Alabama Road in the area during that time frame with intermittent lane closures. Everyone is encouraged to avoid the area if possible.

If you must travel to or from the area, you are encouraged to do so before 10 a.m. and after 11 a.m.

Newtown Park will be temporarily CLOSED on Friday, June 1, from 7:30 a.m. to 10 a.m., due to a large event in the area.

Traffic will be heavy on Old Alabama Road in the area during that time frame with intermittent lane closures. Everyone is encouraged to avoid the area if possible.

If you must travel to or from the area, you are encouraged to do so before 10 a.m. and after 11 a.m.

We had a great time listening to Rumours at the Summer Concert Series on Friday night - thanks to all who attended!

Save the date for the City's Independence Day celebration on Tuesday, July 3! The event will feature music by Bogey & the Viceroy, who will cover classic soul from every era along with current rock/pop tunes. The celebration will also have food trucks and to top off the night, fireworks!

Elizabeth Norris Telford At Johns Creek High School, Black students make up 42% of the student body but 83% of those expelled. Only 3% of those expelled were white. Research shows Black and White students are sent to the principal's office at similar rates and that they commit serious offenses, like bringing weapons or drugs to school, at similar rates, too. But when Black students misbehave, they are punished more severely than White students who

commit the same offenses.

City of Johns Creek, Georgia - Government Hello,

According to the City of Johns Creek social media policy, the City reserves the right to remove submissions that contain personal attacks of any kind (Section V, item C).

If your account continues to violate the City's social media policy, your account may be banned from future commenting or can be blocked from this site.

Joshua Lynn Krueger So John's Creek will use censorship instead of debate. How convenient for all government workers in your municipality.

at 16:35:50 on 5/10/2018 UTC

Elizabeth Norris Telford Nicole the latest data the civil rights in education government website has was from 2015, so if last year they had zero expulsions that's great news! You can look up the statistics I was quoting here:

Lakisha Kaseem City of Johns Creek, Georgia - Government aka Jennifer Chapman

Hello,

What do you consider "personal attacks"?

"If your account *continues to violate* the City's social media policy"

- Give some proof of * continued violations*

"your account may be *banned* from future commenting or can (be) *blocked* from this site."

- And which [government]taxpayer servant(s) will be making that decision?
